RE: FIELDWORK SCHEDULE UPDATE FOR NWIRP CALVERTON, NY

1. This letter is to inform you of the upcoming schedule for fieldwork activities to be performed at NWIRP Calverton, NY. Please note however, that this schedule is subject to change based upon unforeseen circumstances which may be encountered in the field. As of the date of this letter, the fieldwork schedule is:

- Week of April 25 - Soil Borings continue at various locations
 - Surface water/sediment samples at Site 1 - NE Pond.
 - Miscellaneous surface soil samples at various locations.
- Week of May 2 - Bulldozer at Site 2 - Fire Training to grade the site in support of the GPR.
 - Temporary Monitoring Wells/Soil Boring Samples installed. This will continue for about 2 to 3 weeks.
- Week of May 9 - Ground Penetrating Radar program at Site 2.
- Week of June 6 - Tentatively scheduled for permanent monitoring well installation.

The drill rig used for soil borings and temporary monitoring well installation is scheduled to be off site by June 10.

2. The timeline for all fieldwork activities associated with this project is also attached for your information.

RE: FIELDWORK SCHEDULE UPDATE FOR NWIRP CALVERTON, NY

3. If you or a representative from your office wants to schedule a site visit to oversee any portion of the fieldwork, please give me a call at (610) 595-0567, ext. 163. I would appreciate at least ten working days notice prior to the date of the specific activity. This will allow me to insure that the activity that you are interested in seeing is still on schedule and that a security badge will be waiting for you.

Sincerely,

JAMES L. COLTER
Remedial Project Manager
by direction of the Commanding Officer
